DETAILED ACTION

Receipt is acknowledged of the amendment filed 10/29/2009.

The rejections under 35 USC 112, first and second paragraphs, as well as 35 USC 102(b) are withdrawn in view of applicant's amendment.

The following is a new rejection of the claims:

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 3,4, 6-9,11-24, 27-28 and 32-47 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant has amended the claims to read on a drug delivery device with a tether which "comprises a tube configured to replenish the core". However according to Figure 16 and [0098] the tube actually replenishes only when a reservoir is present, and there

is no support in the original specification for the claimed amendment. This is considered new matter. Correction is requested.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Election/Restrictions

This application contains claims 10, 25, 26, 29 and 30 are drawn to an invention nonelected with traverse in the reply filed on 08/03/2007. A complete reply to the final

rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

It is further noted that Fig. 16 is missing from the file. The drawings end at Fig 15. A new copy of Fig 16 should be presented.

Correction of the above new matter and submission of Fig 16 should place the application in condition for allowance. A supplemental search will be done at that time, however barring the finding of new prior art, the application should be allowed.
